Little Too Late

DeFault

Maybe I missed you, maybe its true.
Maybe I didn?t do enough to hold on to u .
Maybe you?ll think back.
On the good times me had.
Maybe one day this feeling wont remind me of you.
It took some time now I know, it?s a little too late.
I?m in this world all alone
And now I see its over, out of time.

I wish id never said goodbye
All the times I never tried.
I couldn?t find your love when I lost my way
But as time went on and on,
I didn?t know that we were meant to be.
Now I?m tired cuz I couldn?t see,
I throw it away,
Now its a little too late.

Shoulda been easy.
Seems so hard.
I could never say that we were better apart.
I shoulda been the one to hold u .
I shoulda been the one you run to.
Turned around just in time to see a faded memory of you.
It took some time now I know, it?s a little too late.
I?m in this world all alone
and now I see its over, out of time.

I wish id never said goodbye
All the times I never tried.
I couldn?t find your love when I lost my way
But as time went on and on
I didn?t know that we were meant to be
And now I?m tired cuz I couldn?t see,
I threw it away,
Now its a little too late.

I remember when I said goodbye
I cant forget the tears that you cried.
I pretended I was over you.

I let u go and I don?t know why.

It took some time now I know
I wish id never said goodbye
All the times I never tried
I couldn?t find your love when I lost my way,
But as time went on and on
I didn?t know that we were meant to be.
Now I?m tired cuz I couldn?t see
I throw it away,
Now its a little too late, too late, too late, too late.
Its a little too late, too late, too late too late.
It?s a little too late, too late, too late, too late.
Now its a little too late.
