

Anyone Else

Glen Templeton

It ain't always easy
To love somebody
You can't live without
You drive me crazy
But somehow babe
You pull me back around
Even on our worst day
When we're fighting
Like we're enemies
There ain't no doubtin'
You're the only one for me I wouldn't get in my car
Drive across town
If you were anyone else
I wouldn't stand out in the rain
Willing to make a fool of myself
No I wouldn't give in
Just to taste your kiss
And you know damn well
I wouldn't fight like hell
If you were anyone else
If you were anyone else Sometimes I hate you
Or at least I want to
But I can't stay mad
Cause I love you enough
To take off my gloves
And reach out my hand
I may get far enough
To let the dust
Settle down
But fast as I leave
I'm always turning back around I wouldn't get in my car
Drive across town
If you were anyone else
I wouldn't stand out in the rain
Willing to make a fool of myself
No I wouldn't give in
Just to taste your kiss
And you know damn well
I wouldn't fight like hell

If you were anyone else
If you were anyone else If I could imagine
Life without you in it
And forget that I love you I wouldn't get in my car
Drive across town
If you were anyone else
I wouldn't stand out in the rain
Willing to make a fool of myself
No I wouldn't give in
Just to taste your kiss
And you know damn well
I wouldn't fight like hell
If you were anyone else
If you were anyone else If you were anyone else (4x)
