Gotta Feel More

Reo Speedwagon

I've never seen the sea seem so calm
Never felt the breeze slippin' through the trees
But now I've got you and it's takin' so long
I wanna see more, I gotta feel moreI never felt young 'til I met you
Never felt fear 'til I thought about losin' you
Only a fool would think that it's all true
I wanna see more, I gotta feel moreI never did believe that mountains could move
Never did believe that the Yankees could lose
Never thought love could come my way
I wanna see more, I gotta feel moreI never felt young 'til I met you
Never felt fear 'til I thought about losin' you
Only a fool would think that it's all true
I wanna see more, I gotta feel moreI gotta feel more, more, more
Than I've ever felt before
There are deeper places to exploreI've seen the world through an eagle's eye
I've felt the ocean's roar
I still love you to the core
I just gotta feel moreI gotta feel more, more, more
Than I've ever felt before
There are deeper places to exploreI've seen the world through an eagle's eye
I've felt the ocean's roar
I still love you to the core
I just gotta feel more, gotta feel moreOoh baby, I gotta feel more
Ooh baby, gotta feel moreDon't you know that I gotta feel
I gotta feel, I gotta feel more
