Dreamember

Twin Atlantic

Take a pill and fall asleep real quick
Fantasize about the people I miss
Wish for, hope for, imagination
An abstracted muse always makes me sick

The day dreaming stuck in a trance
Long for, yearn for, an impossible chance
If we all put our minds together
The energy we make could make the world relax

In our sleep, we all decay
We meet in the night, when I wake, won't remember your name
Iâ€™ve been dreaming for days
Lost in time and sleep as we start to embrace

Popular culture's with me in a deep sleep
Yeah, I can admit, I am among the weak
Too scared to put a face to the name
Deleting history remarkably quick

(I'm here...)
Say what I mean and believe in my past
(Grayscale me...)
Iâ€™m tired repeat, Iâ€™m tired repeat, Iâ€™m tired repeat

In our sleep, we all decay
We meet in the night, when I wake, won't remember your name
Iâ€™ve been dreaming for days
Lost in time and sleep as we start to embrace
Iâ€™ve been dreaming for days
Reality stops my breath as we start to engage

Iâ€™ve been dreaming for days
Lost in time and sleep as we start to embrace
Iâ€™ve been dreaming for days
Reality stops my breath as we start to engage

We start to engage
