Future Proof

[unknown]

Borderline kids
Reinforced glass
Earn some friends
Passport photos and a life so bad
Empty pocket and they think it's all
They think it?s all
It?s all ripped up on a smaller list
You choose to woke up
Chemical, chemical?s itching, is it grave?
Truly so
Separate the lead gun
Up we ghost, up we ghost
I love the way you print
Borrowed clothes
I could be numb
I could be numb
Passin' through
Borderline case
Future proof
Breathin' air
Breathin' air
Breathin' air
