Golden Boy

Lower Class Brats

my mother was a goddess
sent from heaven above
my father was a derelict
incapable of giving love
you know how they saying goes
that opposites attract
I ran with the life that they gave me
Never to look back'cause I am the golden boy
I will search and destroy
I am the golden boy
Im goldenIm the one your parents warned you of
I shine when i walk the streets
i can bring despair and pain
to the people that i meet
i can also lift you up
so you dont touch the ground
watch you scream in ecstacy
when your hands and feet are bound
