4U

Eric Lau

[Verse 1] Promises you made me All the things you told me You said you'd never leave me We'd be together for eternity Now it's all in the past Now I know our love will last Lady I will do all I can Lady I will be all I am I'll give you all you had before So come on in and close the door Let me show you what I could be Could you just please tell me [Chorus] Do you believe in love And the promise that it gives I wanna love U 4 life 'Cause your love is why I live Do you believe in love And the promise that it gives I wanna love U 4 life 'Cause your love is why I live [Verse 2] I knew the thing girl But my faith wasn't strong enough Now my heart is built to last My heart is beating for you fast But now I know that you understand I wanna take you by the hand And walk with you down that isle And with you I'll live my life I give you all you had before So come on in and close the door Let me show you what I could be If you just please tell me [Chorus] [Bridge] I want you to know that it's for real This feeling that I feel I want you to know that it's so real [Chorus / Fade Out]
