

What If I Kissed You

Drake

What if I kissed you right now
how would we explain it
trying to imagine how it might sound
if I just yelled out
What if I kissed you right now
would it bring us any closer
take the weight off our shoulders
take me I'm yours
and I don't really care who knows it
can we afford to be that open with all these emotions
if we were a secret how long could you keep it
keep it to yourself don't tell nobody else
nothin but mine,
talkin bout mine,
now ur all mine
and you... you.. you...
and u just be mine (just be mine)
and u just be mine.. all mine
and u just be mine (just, just be mine)
and u just be mine.. all mine
What if I kissed you right now...would it bring us any closer
take a weight off of our shoulders
tell on me
I dont mind cause if they ask me about it I won't lie.....admit that I'm yours
I don't really care who knows it
can we afford to be that open with all these emotions
if we were a secret
tell me could u keep it?
keep it your yourself dont tell nobody else
nuttin but mine,
talkin but mine,
now ur all mine
and u... u.. u...
and u just be mine (just be mine)
and u just be mine.. all mine
and u just be mine (just, just be mine)
and u just be mine.. all mine
What if I kissed you right now
What if I kissed you right now
just be mine (just be mine)
and u just be mine.. all mine
and u just be mine (just, just be mine)
and u just be mine.. all mine
