Freaky Friday

BradElectro

Howdy people?
Here's a little story about an old friend of mine
And to all you great folks out there
This is hardcore 10-4Freaky Friday, things ain't going my way
Everything is gone, my life is a country song, oh-ohI can jumped out of my bed this morning
Then I heard this crunchy sound
From my left leg that was broken
And a note was laying on the groundBaby, I'm leaving you this minute
Took the car and the cats and dogs
Got the boots and the rhinestone stetson
Nothing's left but the note you got, ah you suckFreaky Friday, things ain't going my way
Everything is gone, my life is a country song
Freaky Friday, go play on the highway
Everything is wrong, what the heck is going onOn my way through crosstown traffic
I was hit by a giant truck
I came late to work and got fired
Then suddenly the thunder struck, oh-ohBaby, I am leaving you this minute
Took the car and the cats and dogs
Got the boots and the rhinestone stetson
Nothing's left but the note you got, ah you suckFreaky Friday, things ain't going my way
Everything is gone, my life is a country song
Freaky Friday, go play on the highway
Everything is wrong, what the heck is going onThe life's a country song, hardcore 10-4
What the heck is wrong, yeah
The life's a country song, hardcore 10-4
What the heck is going onThe life's a country song, hardcore 10-4
What the heck is wrong, yeah
The life's a country song, hardcore 10-4
What the heck is going onEverything is gone, my life is a country song
Hardcore 10-4Freaky Friday, things ain't going my way
Everything is gone, my life is a country song
Freaky Friday, go play on the highway
Everything is wrong, what the heck is going onWell folks, that's all for now
Life is just a long, long country song
And that's a big 10-4
