

Picture Perfect

[SOiL](#)

too long
this has been done it's hiding
but something is wrong pretend not to see it
the vision that feel it
i turn my head once more wipe the tears from my eyes
i feel it's no surprise picture perfect
it's not worth it
nothing rules forever picture perfect
it's not worth it
nothing rules forever too late
the damage is done helpless
i was too young and though i mean it
i pray to believe it
just lying to myself and so i paint what i want
the color to blacken my heart picture perfect
it's not worth it
nothing rules forever picture perfect
it's not worth it
nothing rules forever
after all nothing is as it seems
I'm lost in this dream
nothing is as it seems, yeah picture perfect
it's not worth it
nothing rules forever picture perfect
it's not worth it
nothing rules forever picture perfect
picture perfect
nothing lasts forever
after all
