

Superfabulous

BT

It goes over and over and over and over
But yeah, there's something beautiful
Over and over, goes over and over
But yeah, still something beautiful, mystical Wake me up, wake me up
Wake me up, wake me up Flashbulbs go off in my face
Think of small town with disgrace
Just how did it come to this?
All I've seen is a vacant face Yeah, come on, you can turn it on
Yeah, come on but you never really die It goes over and over and over and over
But yeah, there's something beautiful, mystical
Over and over, goes over and over
But yeah, still something beautiful, mystical Over and over, goes over and over
But yeah, there's something beautiful
Over and over, goes over and over
But yeah, still something beautiful, mystical Yeah come on, won't you wake me up from this?
All I need is a prince to kiss
Then my beauty'll be back mine
It's my soul, my soul I'll find I'm goin' Nike, Nike, Italy
France, romance
Situation, the situation is
Beethoven, roll over It goes over and over and over and over
But yeah, there's something beautiful, mystical
Over and over, goes over and over
But yeah, still something beautiful, mystical Over and over, goes over and over
But yeah, there's something beautiful You can turn it on
Yeah, come on but you never really die
Yeah, come on, you can turn it on Yeah, come on but you never really die
Yeah, come on, turn it on
Yeah, come on but you never really die It goes over and over and over and over
But yeah, there's something beautiful, mystical
Over and over, goes over and over
But yeah, still something beautiful, mystical Over and over, goes over and over
But yeah, there's something beautiful
Over and over, goes over and over
But yeah, still something beautiful
