

# Old Flame

## Juice Newton

Guess I should accept the call  
But I really dont know what to say  
The operator wont let me talk at all  
And she says you want me to pay  
    Oh well it aint nothin new  
    It fits right with my picture of you  
    But tonight youre gonna find out  
What these tears are all aboutChorus:  
    cause this old flame went out  
    You never thought youd be the one  
    In the darkness now  
    I think you know what Im talkin about  
This old flame went outYou went to get cigarettes  
    That was last july, you didnt get home yet  
    And now you expect me to hear you out  
You call me collect, there aint no doubtRepeat chorusWhat do you mean, how can I do this to you?  
    Lets not forget who walked out on whoRepeat chorus
