

# You Got Me Baby

## Tyler Bryant & The Shakedown

1,2...1,2,3

She got the money maker, shake ah shaker, radio on

She say, turn off your phone, lock the door, what's your favorite song

She take my hand, say I show you things you never saw

We stay up all night, doing the devil dance till we can't walk Then we crawl Rock me steady, baby I'm ready  
she said

(Hold on, hold on)

Under the bright city lights, and the neon skies we can

(Hold on, hold on)

Let's run run run till the morning comes

When I'm gone gone gone you'll know

You got me baby New York City put her moves on me shaking my King & Queens

With a little bit of sweet, little bit of sting, just like a honeybee Rock me steady, baby I'm ready she said  
(Hold on, hold on)

Under the bright city lights, and the neon skies we can

(Hold on, hold on)

Let's run run run till the morning comes

When I'm gone gone gone you'll know

You got me baby (Woah, woah, woah, woah)

Well I ain't flying solo I'll be Lennon you be Yoko baby

We ain't got a thing to lose I can't save the world but when I'm with you girl

There ain't nothing that this boy won't do Rock me steady, baby I'm ready she said  
(Hold on, hold on)

Under the bright city lights, and the neon skies we can

(Hold on, hold on)

Let's run run run till the morning comes

When I'm gone gone gone you'll know

You got me, You got me You got me, You got me baby
