Cool Web

Lesley Gore

There's a cool web of silence winds us in
Words melt us down and we spin again
The less we speak the less we cry
You and IThere's a hotbed of anger just ahead
We are fighting to be led from the fire
To the l clouds where the cool cool silence
Winds us inMaybe
You should have told me that you were awake
I should have said I'm afraidThere's the comfort of strangers every night
I'm aware of how I hide isn't right
Here I go to the cool cool silenceMaybe
You should have told me that you were awake
I should have said I'm afraidThere's a cool web of silence winds us in
Words melt us down and we spin again
The less we speak the less we cry
You and I
