

# Do You Wanna Hold Me (Ckb Remix) [Re-Recorded]

## Bow Wow Wow

Children, I want to warn ya, 'cause I've been to California  
Where Mickey Mouse is such a demon, where Mickey Mouse is as big as a house  
Life is wasted on illusions, Tom and Jerry's my solution  
Evil gangs will cut the demons, but I belong some real boy, look around  
And I cry all night, do you want to hold me, hold me tight  
Do you want to hold me, oh yeah, do you want to hold me, hold me there  
Children, you got to hand me, you just got to understand me  
Love and death ain't no physical thing  
'cause making next ain't no one of 'em  
And I cry all night, do you want to hold me, hold me tight  
Do you want to hold me, oh yeah, do you want to hold me, hold me there  
Do you want to  
And I cry all night, do you want to hold me, hold me tight  
Do you want to hold me, oh yeah, do you want to hold me, hold me there  
And I cry all night, there ain't no more confusion in the night  
There's someone there to tell me what is right  
Do you want to hold me, hold me tight  
And I cry all night, there's only one solution to this life  
There's someone there to tell me what it's like  
Do you want to hold me, oh yeah, do you want to hold me, oh yeah  
Do you want to hold me, hold me there  
Do you want to hold me, oh yeah  
Do you want to hold me, oh yeah
