

Be Mine

Meiko

I take a sip of the bottle
Its my remedy
And I know what it is, it's a problem
I've been dealing with it on the daily
I'm so upset 'cause you're not here like you're supposed to be
And I cannot let you know
I am driving myself crazy
I need you, need you
To come and see about me babe, me babe
I've been waiting here all this time
For you to come and be mine, be mine
For you to come and be mine, be mineSo this is love
Well it's not the way I thought it'd be
'Cause I'm dreaming of a life
Where you're not so far away from me
I miss your touch, and I want some kind of a relief
I want you here and now
I want it all somehow'Cause I need you, need you
To come and see about me babe, me babe
I've been waiting here all this time
For you to come and be mine, be mineOh I need you, need you
To come and see about me babe, me babe
I've been waiting here all this time
For you to come and be mine, be mineBe mine, oh
Be mine, oh
Be mine, oh
Be mine, oh
Be mine, oh
Be mine, oh
Be mine, oh
Be mine, ohOh I need you, need you
To come and see about me babe, me babe
I've been waiting here all this time
For you to come and be mine, be mine
For you to come and be mine, be mine
