

I Don't Care

Nikki Lane

I DON'T CARE about anything but you
I DON'T CARE about anything but you

They say the world's gonna come to an end someday
But I know they all wanna tell me lies
Your love is like an ultraviolet ray
I wanna soak it up with opened eyes

I DON'T CARE about anything but you
I DON'T CARE about anything but you

Close the blinds, let's sit around and wait for a while
If the fish don't bite it will be alright
'Cause my mind is moving much too slow
I don't need no pie, not tonight

I DON'T CARE about anything but you
I DON'T CARE about anything but you

We'll sit around and get high
To find what's left of us just like everyone does

I DON'T CARE about anything but you
I DON'T CARE about anything but you

I DON'T CARE about anything but you
I DON'T CARE about anything but you
