

# Performance

[Jonathan Nelson](#)

Whatever I say I shall receive I will believe  
Great things today I will declare I will decree  
God made me a promise, He's faithful to perform it  
And there will be will be a performance Today I will release my faith faith to believe  
For there is a promise waiting for me  
And there will be will be a performance There shall be a performance  
There shall be a performance  
There shall be a performance  
There shall be a performance
