Sweet Music

Kylie Minogue

New sensation, sensation

New sensation, sensation

New sensation, sensationCheck out this groove and you're walkin' on air

Goin' into a new dimension, yeah

So put your vibes on my beat and we'll lay it down like that

Slap the hi-hat in, put the fairlight on the track, oohAnd we can go crazy like that, feelin' like that Movin' like that, dropin' like that

Rockin' the track, I'm lookin' for that new sensationWoo hoo, I think we're on to somethin', you're taste it mirrors mine

So high, I'm in the moment, let's make this demo right

I might just lose it, woo hoo, when we make sweet musicNo feather beds, no exotic affair, yeah

Got samples and scratches, let's do it right here

(Boys and girls, a different kind of sound)

'Cause every heartbeat babe is the soundtrack to your life, oh

And there's a man out there must be sent to get me highAnd we can go crazy like that, feelin' like that Movin' like that, dropin' like that

Rockin' the track, I'm lookin' for that new sensationWoo hoo, I think we're on to somethin', you're taste it mirrors mine

So high, I'm in the moment, let's make this demo right

I might just lose it, woo hoo, when we make sweet musicWhen we make sweet music

(Oh, yeah, yeah, yeah)

When we make sweet music

(Oh, yeah, yeah, yeah)

When we make sweet music

(Yeah, yeah, yeah)

When we make sweet musicI think we're on to somethin', your taste it mirrors mine

So high I'm in the moment, let's make this demo right

I might just lose it when we make sweet musicAnd we can go crazy like that, feelin' like that Movin' like that, dropin' like that

Rockin' the track, I'm lookin for that new sensationWoo hoo, I think we're on to somethin', you're taste it mirrors mine

So high, I'm in the moment, let's make this demo right

I might just lose it, woo hoo, when we make sweet musicWoo hoo, I think we're on to somethin', you're taste it mirrors mine

So high, I'm in the moment, let's make this demo right

I might just lose it, woo hoo, when we make sweet music

When we make sweet music, when we make sweet music
