King

Iron Solomon

The King

The crown

The throne

The majesty

Call me your heiness

No one could rule this round but me The King shall remain supreme 'til Kingdom Come

All hail the King

A statue in stone I got Caesar's stature

The queen I've captured it's Cleopatra

Shots at the throne better reload faster

Better read your chapters

See your pastor

My squad gettin' hits I'm the clean up batter

Out the park every pitch i don't need no catcher

A bully in the paint my team go at'cha

I hit the tying points and the free-throw after

And 1

My shot is water

My dribble is struggle

In a single quarter

Catch a triple double

I'm a sore winner

Play the sport better

King amongst court jesters

This is full court pressure

A leader in a league of my own

Wanna do me like brutus did caesar in Rome

Double cross me like Judas did Jesus but no

You could never get the keys to my throne

King Kong king cobra

King of the jungle

Throw 'em over ropes out the ring when i rumble

Battle royale clash of the titans

I'm in my own weight class when i'm fighting

All hail the monarch's name it's monsoon season can't stop my reign

The air is my sun with a seat in the sky

Your king your heiness the chief of the tribe

Protect my pride

Murder piece of the pie
Got my mink in check
Keep my queen by my side
Aint a pawn callin' moves from the castle
I'm on the front line drawin' troops into battle
A seat in the palace but I eat with the commoners
Practice what I preach but take the lead from my followers
Honored by the loyalty
Loyal the infantry
Win the war and share the spoils of the victory
