# Video Games

## Eski GÃ¶ten

I know video games
Is what you re down for
I say we quit playing games
and let the video on

Pull down my skirt,
Iâ€™ll be in nothing but your shirt
Youâ€™ll be the stylist youâ€™ll be the Jack
Iâ€™ll just be your girl

Donâ€™t think about the X
This ainâ€™t a math class
Watch me perform in this fest
Access all area pass

And after I finish my show
We can put everything in slow mo
Come and join me backstage
Meet and greet while you eating the cake

Do what you like boy now,
Do what you want
While Iâ€™m doing what I do now oh

Keep it 100
No matter donâ€™t stop
Keep doing what you do now boy

Feels like we â€˜re walking on Mars
Weâ€™re in the zone now
Comets and planets and stars
We make them all bow

You roll up a 3
Like you got a masterâ€™s degree
Inhale-exhale-with me
Donâ€™t pull a Jay and Iâ€™ll be your B

Things are getting outta line
But that ainâ€™t our fault
We could make a viral vine
We need more than 6 seconds

And after we finish our show
Boy letâ€™s put everything in slow mo
Once we feel itâ€™s complete
Reverse the tape and repeat

Do what you like boy now,
Do what you want
While Iâ€™m doing what I do now oh

Keep it 100
No matter donâ€™t stop
Keep doing what you do now boy
