

San Francisco (Little Daylight Remix)

The Mowgli's

I've been in love with love
And the idea of something binding us together
You know that love is strong enough
I've seen time tell tales about that systematic drug
Yeah that heart that beats as one
It's collectively unconsciously composed I lost my head in San Francisco
Waiting for the fog to roll out
But I found it in a rain cloud
It was smiling down
Do you feel the love? I feel the love
C'mon c'mon, let's start it up!
Let it pour out of your soul I've been in love with love
And the idea of something binding us together
You know that love is strong enough
I've seen time tell tales about that systematic drug
Yeah that heart that beats as one
It's collectively unconsciously composed Do you feel the love? I feel the love
C'mon c'mon, let's start it up!
Let it pour out of your soul
