

# Right Thru Me (feat. J. Park)

## NERVO

And there you go again  
Turning up my upside-down  
It doesn't matter now  
Silence is the only sound  
Do you realize  
Everything you mean to me  
You know I try and hide it  
But somehow you always see Right through me  
You see right through me  
Right through me  
But somehow you always see  
Right through me  
You see right through me  
Right through me  
Every time The way you got me here  
Girl, you know I can't refuse  
There's nothing else that I can do  
I know you always see Right through me  
You see right through me  
Right through me  
Every time, right through me  
Right through me  
You see right through me  
Right through me  
Every time
