You

Bomshel

One song on the edge of my lips
One back pocket where my fingers fit
One sun in my blue sky
One name that my sharpie writes
Seems like I get so single minded
Tunnel vision blinded byYou
Oh
Cause baby I love
You
OhTwo thoughts running through my head
What weve done and aint done yet
One number on my speed dial
One hello that makes me smile
I got no reason to be calling
Except for baby I love talking toYou
Oh
Cause baby I love
You
OhAll I think and dream about
Oh baby is
You
OhAnd the best part
Is when Im in your arms
And youre whispering
Baby, I love youI got one plan and no plan B
Once in ???? I see
One lover and one best friend
A million tomorrows I want to spend withYou
Oh
Cause baby I love
You
OhWell all I think and dream about
My baby is
You
Cause baby I love
You
Oh
Im crazy over
You

Cause baby I love
You
Just so in love with
You
