White Rock

Riot

Hot rock and rollers,
Flash through town, tryin' to make some waves.
We'll have some wine, love some women,
Another night, another, show to do.
Outside snow is falling,
Some view, got to get the crew.
White rock, makin' me so hot.
I like the fever from white rock.
White rock, come on make it hot.
White fury, white rock.
Up all night, sleep all day,
Comes the action, when we start to play.
Music echoes from the high walls,
White rock, never gonna fall.
Outside snow is falling,
Some view, gotta get the crew.
White rock, makin' it so hot.
I like the fever from white rock.
White rock, come on make it hot.
White fury, white rock.
White rock, makin' it so so hot.
I like the fever from white rock.
White rock, come on make it hot.
White fury, white rock.
White rock, makin' it so hot.
I like the fever from white rock.
White rock, come on make it hot.
White fury, white rock.
Make me hot.
