

# Midnight Fantasy

Kevin Toney

Come on, come on, I'll give you what you need  
Come on, come on, I'm your midnight fantasy  
Come on, come on, I'll give you what you need  
Come on, come on, I'm your midnight fantasy  
It's half past twelve and I'm on my own  
Putting on some music turn the lights down low  
Temperature is rising and I'm in the mood  
I'm feeling you what you make me do  
I wonder baby do you ever think of me  
Would you go for whatever comes naturally  
I'm lying here I'm waiting all alone in my bed  
Thinking of a way to get in to your head  
I'm gonna take you places that you've never been before  
I come in to your dreams, make you beg for more  
I'll hold on to your body, I'll give you what you need  
Go deeper with me baby, I'm your midnight fantasy  
I'm gonna take you places that you've never been before  
I come in to your dreams, make you beg for more  
I'll hold on to your body, I'll give you what you need  
Go deeper with me baby, I'm your midnight fantasy  
Anything you wanna try I just might  
I'll wake you from your sleep we'll go on all night  
The things I wanna do when you look me in the eyes  
You're taking me higher till the early light  
I'm gonna take you places that you've never been before  
I come in to your dreams, make you beg for more  
I'll hold on to your body, I'll give you what you need  
Go deeper with me baby, I'm your midnight fantasy  
I'm gonna take you places that you've never been before  
I come in to your dreams, make you beg for more  
I'll hold on to your body, I'll give you what you need  
Go deeper with me baby, I'm your midnight fantasy  
Oh, holding you close would be nice  
But you can't be here tonight  
So I'm gonna play with your mind  
I'm gonna take you places that you've never been before  
I come in to your dreams, make you beg for more  
I'll hold on to your body, I'll give you what you need  
Go deeper with me baby, I'm your midnight fantasy

I'm gonna take you places that you've never been before  
I come in to your dreams, make you beg for more  
I'll hold on to your body, I'll give you what you need  
Go deeper with me baby, I'm your midnight fantasy  
I'm gonna take you places that you've never been before  
I come in to your dreams, make you beg for more  
I'll hold on to your body, I'll give you what you need  
Go deeper with me baby, I'm your midnight fantasy  
I'm gonna take you places that you've never been before  
I come in to your dreams, make you beg for more  
I'll hold on to your body, I'll give you what you need  
Go deeper with me baby, I'm your midnight fantasy
