

# I Can Wait

Steve Earle

"I fear I can't go on", she said  
"I think I would be better dead"  
She knelt, she cried and I held her head  
I thought I knew what she was feelin'

And I assisted in her suicide  
Now that she's on the other side  
I know what she was after  
And I  
I, I, I can wait

Inside  
I, I, I can wait  
A cold and wet November's day  
We lowered her into a grave  
I had never seen her look so brave  
No worms consume her body  
And I  
I, I, I can wait  
Inside  
I, I, I can wait
