You Stupid Mankind

Helloween

You think you are alone
In this universe
What would you say if there are some
Armed with all you deserveDestiny my friend youll see
Counts nothing anymore
Open up your mind now and realize
They may come for sureDead and gone
No survivors
Theyll hit and crush our earth
You stupid mankindEvolution everywhere
Who do you think you are
Like you are on the top of there ?
They may come for war
More evil, violent and vain
Than you could ever be
Can beam through time and bring you pain
All dead no one fleesDestiny my friend youll see
Counts nothing anymore
Open up your mind now and realize
They may come for sureDead and gone
No survivors
Theyll hit and crush our earth
With no mercy
Dead and gone
No more fightin
Theyll kill and burn your earth
You stupid mankindThey dont care
They dont care
They dont care
They dont careDead and gone
No survivors
Theyll hit and crush our earth
With no mercy
Dead and gone
No more fightin
Theyll kill and burn your earth
You stupid mankind
