It`s Not Me

Supergrass

Over their heads
I find a place to crawl away
So many times
I hear the things we used to sayInto the night
The conversation fades away
Losin' the drift
Of all the things I had to sayIt's not me, no, no, not me
But I don't know what is
I try and find my peace of mind
But I know what I miss
Now it's gone, now it's gone, now it's goneAs everyone listened
My head turned away
I know what I'm missin'
Got nothin' to sayIt's not me, no, no, not me
But I don't know what is
I try and find my peace of mind
But I know what I missNo, it's not me, no, no, not me
But I don't know what is
I try and find my peace of mind
But I know what I miss
