All My Days

Chunter

Well I have been searching all of my days
All of my days
Many a road, you know
I've been walking on
All of my days
And I've been trying to find
What's been in my mind
As the days keep turning into nightWell I have been quietly standing in the shade
All of my days
Watch the sky breaking on the promise that we made
All of this rain
And I've been trying to find
What's been in my mind
As the days keep turning into nightWell many a night I found myself with no friends standing near
All of my days
I cried aloud
I shook my hands
What am I doing here
All of these days
For I look around me
And my eyes confound me
And it's just too bright
As the days keep turning into nightNow I see clearly
It's you I'm looking for
All of my days
Soon I'll smile
I know I'll feel this loneliness no more
All of my days
For I look around me
And it seems He found me
And it's coming into sight
As the days keep turning into night
As the days keep turning into night
And even breathing feels all right
Yes, even breathing feels all right
Now even breathing feels all right
It's even breathing
Feels all right
