

I'm With You

Delbert McClinton

Here comes the weekend, honey, what's goin' on?
Do we put our feet up, honey, party all night long?
Oh, baby, whatever, I'm with youAre we staying home, are we going downtown?
Are we dressin' up, honey or dressin' down?
Oh, whatever, baby, I'm with you, oh yeahYou're my sunshine in the morning
You're my stars at night
(Star's at night)
You're all I ever dream aboutAnything you want well, baby
Honey, that's alright
Anything you don't
I can learn to live without as long asI'm with you, till the sun stops burning
I'm with you, till the world stops turning
Till the end of time, I'm with you, oh yeahYou're my sunshine in the morning
You're my stars at night
(Star's at night)
You're all I ever dream aboutAnything you want, well, baby
Honey, that's alright
Anything you don't
I can learn to live without as long asI'm with you, till the sun stops burning
I'm with you, till the world stops turning
Till the end of time, I'm with you, oh yeah
Till the end of time, oh baby, I'm with you, it's alrightTill the end of time, oh baby, I'm with you, it's alright
Till the end of time, oh baby, I'm with you, oh yeah
