There Is Hope

Number One Gun

This time it's all here
You felt so long ago
And what can you do about it?
Stop your cryingAnd what will he ask you?
Now that it's over with
But behind that face there's only hope in you
In youDo you have to feel this way?
'Cause you never stay the same
Do you notice how you change, when you believe?Just like I said before
Behind that face of yours
You hide so far away
From everything that's rightI'm so glad, you're honest
But your life is such a mess
And I know inside of you there's hope, you'll find it
You'll find itDo you have to feel this way?
'Cause you never stay the same
Do you notice how you change, when you believe?Do you search but never find?
'Cause this happens all the time
And do you notice how you change, when you believe?This life is all we are
So prepare your lonely heart
And you know it's all you have
So breathe inSo say you're sorry now
This pain you won't allow
And you know it's all you have to
Do nowDo you have to feel this way?
'Cause you never stay the same
Do you notice how you change, when you believe?Do you search but never find?
'Cause this happens all the time
And do you notice how you change, when you believe?
