

One Last Thing

Terrapin Productions

Chalked up in a city street
Broke glass in bloody scene
Young guns that are half my age
Baghdad up to Monterrey
Cell phones and the magazines
Death bombs and the human beings
Hate war and diamond rings
Nightmares of silly things
How does anybody sleep at night?
Out of mind but not out of sight
Out of love and we just begun
Livin large in America

But I found, one last thing
To believe in
But I found, one last thing
To believe in

Close calls and we're holdin on
Police lines and fire alarms
High winds with a heavy fall
Dead birds in a parking stall
How does anybody sleep at night?
I lay in bed and I close my eyes
I kind of rest but it starts to hurt
Living here is a lot of work

But I found, one last thing
To believe in
But I found, one last thing
To believe in
But I found

[Transmission:]

(Why we's true to breathe in the most righteous breath)
(A feeling of heartfelt purpose, and a sense of hope)

But I found
One last thing
(For something bigger than ourselves)

[Chorus: x2]
But I found, one last thing
To believe in
But I found, one last thing
To believe in

To believe in
