

Silverado

Black Dub

Black ice was everywhere
At every corner but we didn't care
Silver riding, silver nights, Silverado
The laughter would not quit
It really felt like it was it
Silver riding, silver nights, SilveradoThe depth of the dream we fell in
Not for any tongue to speak in
Ah yes, it's all right to see
The light to eternal land
Silver riding, silver nights, SilveradoSweet empire time
Before the bomb burned out the rhyme
Silver riding, silver nights, Silverado
The fever was so strong
And the nights were never wrong
Silver riding, silver nights, SilveradoNo worries came to mind
We blazed it, knew no time
Drunk on a silver moon
Singing out their own tune
Silver riding, silver nights with SilveradoThe room was hell on fire as the engines rode desire
Oh, the nights of the silver needle of Silverado
It finally dawned on me like the pounding of the sea
Those silver nights had slowly faded on SilveradoDon't stand in the cold for too long
We want you staying strong
Don't walk the plank for your song
I'm gonna miss you when you're goneSilver riding, silver nights with you Silverado
Silver riding silver nights, my Silverado
Silver riding, silver nights on Silverado
