Victoria

Nazareth

Victoria, Victoria, I could love you for a hundred years And still want more of ya It's been a long time now since high school days But when I'm with you, darling you still amaze me No one could ever come before ya God knows how much I still adore ya My Victoria, Victoria, I could love you for a hundred years And still want more of ya Hey little girl, when we first met I was shaking so hard you really made me sweat You opened up my eyes and showed me You took me by surprise and floored me We walked to school together Just a boy and a girl We talked through all kinds of weather About giving our love a whirl Do you remember the time at the high school dance When the Beach Boys sang about good vibrations? My Victoria, Victoria, I could love you for a hundred years And still want more of ya We walked to school together Just a boy and a girl We talked through all kinds of weather About giving our love a whirl We were cruisin' the strip every Friday night Headin' for the beach in a two tone torc flight First time I turned and saw you God only knows I love you Never anyone before you Don't you know I still adore you? My Victoria, Victoria, I could love you for a hundred years And still want more of ya My Victoria, Victoria, I could love you for a hundred years And still want more of ya My Victoria, Victoria, I could love you for a hundred years And still want more of ya My Victoria, Victoria, I could love you for a hundred years And still want more of ya
