# I'm Alone

## SNSD (Tiffany)

Stay with me till the clouds are gone
Understand you're the only one
I feel your closeness like a missing key
You've got me all over you
You're all over me
I'm alone
In the lay by we wait for cars to pass

In the sunshine we always wait for dark
In the classroom you avoid my eyes
When you kiss me I can't hear you lie
I'm alone
Her face is fading it will soon be gone
But there's part of me that will never move on
Her words are falling through the sky like snow
I hear them calling now it's time to go
