

Slow Down

Pietro Cesaro

What a day, a stressful day you spent
taxes, worries, people always complain
living in a hurry is not for you
why are you running ? where are you running ?
you have to be crazy to live in this way
the crisis has arrived , you fear for your money
and the safe life someone has programmed for you

slow down you have to... slow down

more money won't bring you more happiness, mr. yuppie remember,
a wise man said : i wanna be the oldest artist on the stage
and not the richest man in the graveyard

slow down you have to... slow down

mr. yuppie remember...mr. yuppie remember
mr. yuppie remember...mr. yuppie remember
