

You're My Queen

Mercury Rev

Siren with a song in your eye
Slashing through my ear like a beast
Seven times I leapt upon your shore
And every night I let you conquer me You're my queen
You're my queen
You're my queen
You're my queen Serpent with your blue planet eyes
Passing like a ship through my sleep
Seven times I kissed you on the mouth
And every night I let you conquer me You're my queen
You're my queen
You're my queen
You're my queen Queen
You're my queen
You're my queen
You're my queen Queen
You're my queen
You're my queen
You're my queen
