

I'm Better

Ashley Parker Angel

Hey
Tell me what's going on
Hey
Tell me where I go wrong
I been losing all I got
Then you
You just walk right in
You just walk right in When I'm here with you I just block it out
It's cool we talk about whatever
And yeah, you know I've been around
My world came crashing down
But when I'm here with you I'm better Hey
I'm watching the worlds collide
Hey
There's nobody else inside
Girls, they don't know what they want
But you
You just walk right in
You just walk right in When I'm here with you I just block it out
It's cool we talk about whatever
And yeah, you know I've been around
My world came crashing down
But when I'm here with you I'm better It used to be that I just had to fake it (All my life)
Over and over I just couldn't take it (Not this time)
But you
Where ever you walk I'll run
Yeah you
Anything goes tonight When I'm here with you I just block it out
It's cool we talk about whatever
And yeah, you know I've been around
My world came crashing down
But when I'm here with you I'm better I'm better When I'm here with you I just block it out
It's cool we talk about whatever
And yeah, you know I've been around
My world came crashing down
But when I'm here with you I'm better
