[Verse 1]

I had a dream last night you gave me a ring  
With a fucking castle on it  
And a diamond on top that's all I really wanted  
Whoa oh  
Whoa  
Until two aliens came and chopped both our heads off  
With samurai swords  
At least we died together, that's what I thought  
I woke up huggin' leather, am I out of pocket? She ain't got no soul she ain't got no heart  
Love will stunt your growth  
Love will make it hard to stay sober  
So hard to stay sober[Chorus]  
I'mma be fine anyway  
I'mma be cool  
I'mma keep calm  
I'mma be right anyway  
Better than you, better than her  
I'mma be old anyway  
I'mma be on/off anyway  
I'mma be on/off anyway[Verse 2]  
I been through like six Swishers  
In one day with one grape and one blueberry  
What would my mother say? She want me to be married  
And happy and whole not high and alone  
Whoa, that Xanax make you trip, I still ain't got no whip  
I still ain't got no friends  
At least I got my family, bullshit  
My daddy still can't stand me  
That hate don't make you hard  
Hate'll make you old  
Haters gone too far  
Hate is all I know  
And I just can't stay sober  
I can't stay sober You should see the look on your face[Chorus][Outro]  
Just can't stay sober  
I'm trying to stay alive  
I can't stay sober  
I'm just trying to stay alive

I can't stay sober, I  
Alive  
I don't know man
