

Card Games and Old Friends

Starflyer 59

Say goodbye, it's no life
We never realized
Where we've been, sad ends
We never realized Card games and old friends
And always no sad ends
Card games and old friends
You mess it up, mess it up, mess it up No surprise, different lives
Express the world on time
Sad ends to bad ends
We never realized Card games and old friends
And always no sad ends
Card games and old friends
You mess it up, mess it up, mess it up
Mess it up, mess it up, mess it up
