

# The Doberman (Live At iTunes Festival)

## Kasabian

Silence in the yard  
Doberman's asleep  
You never have to lay your head down here  
Watch them disappear  
The truth is they never had no future  
They never had no past  
I was alone  
I was alone again This beat on London's sky  
Whiskey's almost dry  
I smile 'cause I've already escaped  
Just to like to see how far I can take it They never had no future  
They never had no past  
I was alone  
I was alone again
