

# Just a Little Love

## Junior Brown

just a piece of a dream  
is all i can hold on to  
just a little touch  
would mean so much from someone like you just the slightest indication  
from your heart, give a sign  
just a piece of cupid's arrow  
make it all the way to mine ive been so starved  
for any part of love or tenderness  
just a crumb of your sweet love  
might be, or mean, success any kindness you can spare  
just a handout i dont care  
call it charity  
just a little love goes a long long way with me INSTRUMENTAL BREAK  
ill take all the love youll give  
if only for a little while  
and ill make it last  
throughout eternity ill remember how to live  
if only for a little while  
just a little love  
goes a long long way with me ive been so starved  
for any part of love or tenderness  
just a crumb of your sweet love  
might be, or mean, success any kindness you can spare  
just a handout i dont care  
call it charity  
just a little love goes a long long way with me
