Opera

Floetry

We wrote fairy tales
Of how we'll live in castles
Tight like Hansel and Gretel
And grow old and settleIn a town that we'll tighten

With our marry day

We gonna love like that

Like everyday like every wayLike can I stay at yours tonight?

We can hold tight, love bite

And share some soul

We can pick and rollLose control and let me take it

Like how I let you break it

Don't forget we couldGet high on each other

And serve time for it

Through the night and back

Into the morning, can't crack the habitSo, you see I'm feening

I'm needing some more

And you got me grinning like it's

Money that I'm winningNo way is this ending

'Cause you got me feeling purer than thou

You need to show me how you do this thing

'Cause you got me singing likeI'll crown you king of this throne

If you can take me home

Like runs with no stripes

It doesn't have to be tonightHow's about early morning, I'm talking AM

We can beat the dawn

Or just chill through time barriers

Can't help the whispers of I doBut you see through my proper test

Got me making game faces

In London we say lacing you say making sense

This shit's intense ya, I kinda [Incomprehensible] offence Cause you move me

So I broke my role and I got freaky with it

You chastise me with my own belt

I ain't gonna lie, I felt the universe move You left me singing like opera

Like Cleopatra or Madam Butterfly

Yo it feels so good you brought tears

To my eyes I was likeNow, was that supposed to happen

All that foot tappin' voice breakin'

Now I'm carving Kamasutra diagrams, ya'll

With the headboardIgnored the buzzer 4 times

Got up hard telling lies Even surprised myself With my conniving waysI dived in like he meant survival Like he was christened H20 Like he could make the trees grow And the clouds spit snowHe laid kisses on my chest Like his name was Zorro Had me saying, "Hell No" When he said he had to goI was hiding clothes And play fighting like children We were clashing our Titans Till weight we were losing I had Slum Village album on repeat We were knockin' boots to hip hop beats I even reached my maximum in my sleep Yo, he had me singing likeYo, he had me, he had me He had me like, he had me like
