

If You See My Baby

IF YOU SEE MY BABY

Writersc Eddie Miller and Bob Morris

Copyright 1961 If you see my baby while making your rounds

In some crowded nightspot or cafe in town

Tell her I miss her and I'm still around

If you see my baby in this lonesome old town

Tell her to call me when she's all alone

Cause I'm always waitin' by my telephone

I'd still worship the ground where she walks around

If you see my baby in this lonesome old town

Tell her to call me...
