

Only Solutions

Tron

In the jungle I run tonight
Find no peace to logical life
No confusion, just wrong or right
Oh yeah Faces, numbers I recognize
You don't fool me with cynical lies
No problems, no compromise
Oh yeah Only solutions
Dont pull me down, I just wanna hear
Only solutions
Oh, it wont be long, it wont take too long Modern times drive me insane
Explanations I cant explain
Leaves me standing in the rain
Oh yeah Solving mysteries with nothing to lose
Magic leaves you without any clues
Theres only so much one man can do
Oh yeah Only solutions
Dont pull me down, I just wanna hear
Only solutions
Oh it wont be long, it wont take too long Only solutions
Dont pull me down, I just wanna hear
Now that the sun is shining
Clear vision, clear vision In the jungle I run tonight
Find no peace to logical life
No confusion, just wrong or right
Oh yeah Faces, numbers I recognize
You dont fool me with cynical lies
No problems, no compromise
Oh yeah Only solutions
It's my point of view
Only solutions
Oh, clear vision Only solutions
No second thoughts
Only solutions
No, no, no contradictions [Incomprehensible]
No escape
