

White Noise

[Sinistar](#)

White noise, it's never the right choice
With idiot-box talk, just slammin' the shit
A backlash with an alien contract
They're making their contacts Embrace your city, I'm not going down
I'm taking over, turn me around
Before you chill me
(And then you chill me)
Rat race Coming from out of the grave
They're taking over the airwaves
To put you in chains in that case
I'm backing up my shit, I think I'm over it
You better brace your city I'm not going down, I'm taking over
Turn me around, then take me over
I'm not going down, I'm taking over
Turn me around, then take me over Don't blow me away, don't learn how to lie
Just throw me away and open my eyes
Don't blow me away, just show me the way I'm not going down, I'm taking over
Turn me around, then take me over
I'm not going down, I'm taking over
Turn me around, before you chill me
(And then you chill me) I'm not going down, I'm not going down
I'm not going down, I'm not going down
I'm not going down, I'm not going down
