

# Bob's Yer Uncle

## Happy Mondays

What do you want to hear when we're making love?  
What do you want to hear when we're making love?  
Can I take you from behind and hold you in my arms?  
What do you want to hear when we're making love?  
Can I take you from behind and feel you in my heart?  
What do we need to re-live to bring us close? Why don't you do it to me?  
Why don't you do those things to me?  
Why don't you do it to me?  
Why don't you do those things to me? Four fall in a bed, three giving head, one getting wet  
Four fall in a bed, three giving head, one getting wet What do you want to hear when we're making love?  
Can I hold you from behind and tell you that it's me? Why don't you do those things?  
Why don't you do those things to me?  
Why don't you do those things?  
Why don't you do those things to me? The love drug is a bug that cuts us both, oh  
Why don't you do those things to me? Why don't you do it to me?  
Why don't you do those things to me?  
Why don't you do it to me?  
Why don't you do those things to me? What can I say to you when we're making love?  
I could take you from behind and make you live  
I could take you from behind and make you live What do you need me to say when we're making love?  
I can take you from behind and then I'll forgive Why don't you do it to me?  
Why don't you do those things to me?  
Why don't you do it to me?  
Why don't you do those things to me? Why don't you do it to me?  
Why don't you do those things to me?  
Why don't you do it to me?  
Why don't you do those things to me? Why don't you do it to me?  
Why don't you do those things to me?
