Time Has No Mercy

The Common Linnets

Time has no mercy
Time waits for no one
Nights drag on forever
But the healing never comesTime has no mercy
It burns down the days
Time only hurts me
As it carries you awayAn early snow is falling now
I swear those autumn leaves just barely hit the ground
That northern wind is blowing down
Season's change, but the pain remainsTime has no mercy
Time waits for no one
Nights drag on forever
But the healling never comesI wait by my window
I wait for no one
I'm listening for your footsteps
But your footsteps never comeTime has no mercy
Time waits for no one
Nights drag on forever
But the healing never comes (2x)
