

# Nobody

## Wonder Girls

You know I still love you, baby  
And it will never change, saranghae  
I want nobody, nobody but you  
I want nobody, nobody but you  
How can I be with another? I don't want any other  
I want nobody, nobody, nobody, nobody  
Why are you trying to, to make me leave ya  
I know what you're thinking, baby why aren't you listening?  
How can I just, just love someone else  
And forget you completely when I know you still love me?  
Telling me you're not good enough  
My life with you is just too tough  
You know it's not right, so just stop and come back, boy  
How can this be when we were meant to be?  
I want nobody, nobody but you  
I want nobody, nobody but you  
How can I be with another? I don't want any other  
I want nobody, nobody, nobody, nobody  
I want nobody, nobody but you  
I want nobody, nobody but you  
How can I be with another? I don't want any other  
I want nobody, nobody, nobody, nobody  
Why can't we just, just be like this?  
'Cause it's you that I need and nothing else until the end  
Who else can ever make me feel the way  
I, I feel when I'm with you, no one will ever do  
Telling me you're not good enough  
My life with you is just too tough  
  
You know me enough, so you know what I need, boy  
Right next to you is where I need to be  
I want nobody, nobody but you  
I want nobody, nobody but you  
How can I be with another? I don't want any other  
I want nobody, nobody, nobody, nobody  
I want nobody, nobody but you  
I want nobody, nobody but you  
How can I be with another? I don't want any other  
I want nobody, nobody, nobody, nobody

I don't want nobody, body  
I don't want nobody, body  
Honey, you know it's you that I want  
It's you that I need, why can't you see?  
I want nobody, nobody but you  
I want nobody, nobody but you  
How can I be with another? I don't want any other  
I want nobody, nobody, nobody, nobody  
I want nobody, nobody but you  
I want nobody, nobody but you  
How can I be with another? I don't want any other  
I want nobody, nobody, nobody, nobody  
Back to the days when we were so young and wild and free  
Nothing else mattered other than you and me, so tell me why can't it be?  
Please let me live my life my way  
Why do you push me away?  
I don't want nobody nobody nobody nobody but you
